### **SUMMARY OF FINDINGS**

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
March 28, 2013	CPT Code 27331-59 Knee Surgery	\$984.33	\$437.06

### **FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

**Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving a medical fee dispute.
2. 28 Texas Administrative Code §134.203, effective March 1, 2008, sets the reimbursement guidelines for the disputed service.

3. The services in dispute were reduced/denied by the respondent with the following reason codes:
- 97-The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated.

### **Issues**

Is the allowance for CPT code 27331-59 included in the allowance of another service billed on the disputed date of service?

### **Findings**

On the disputed date of service, the requestor billed for the following procedures:

- CPT code 29880-LT defined as “Arthroscopy, knee, surgical; with meniscectomy (medial AND lateral, including any meniscal shaving) including debridement/shaving of articular cartilage (chondroplasty), same or separate compartment(s), when performed.”
- CPT code G0289-LT defined as “Arthroscopy, knee, surgical, for removal of loose body, foreign body, debridement/shaving of articular cartilage (chondroplasty) at the time of other surgical knee arthroscopy in a different compartment of the same knee.”
- CPT Code 27331-59-LT defined as “Arthrotomy, knee; including joint exploration, biopsy, or removal of loose or foreign bodies.”

The respondent denied reimbursement for code 27331-59-LT based upon reason code “97.”

28 Texas Administrative Code §134.203(a)(5) states "Medicare payment policies" when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.”

28 Texas Administrative Code §134.203(b)(1) states “For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules.”

Per CCI edits, CPT code 27331 is not a component of code 29880 or G0289; therefore, the respondent's denial is not supported. As a result, reimbursement per Division fee guideline is recommended.

Per 28 Texas Administrative Code §134.203(c)(1)(2), “To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications.

(1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32.

(2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year. The following hypothetical example illustrates this annual adjustment activity if the Division had been using this MEI annual percentage adjustment: The 2006 Division conversion factor of \$50.83 (with the exception of surgery) would have been multiplied by the 2007 MEI annual percentage increase of 2.1 percent, resulting in the \$51.90 (with the exception of surgery) Division conversion factor in 2007.”

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Participating Amount = Maximum Allowable Reimbursement (MAR).

The 2013 DWC conversion factor for this service is 69.43.

The Medicare Conversion Factor is 34.023

Review of Box 32 on the CMS-1500 the services were rendered in zip code 77030, which is located in Houston, Texas therefore, the Medicare participating amount is based on locality “Houston, Texas”.

The Medicare participating amount for code 27331 is \$482.35.

Using the above formula, the MAR is \$874.12; however, this code is subject to multiple procedure discounting

resulting in \$437.06; The respondent paid \$0.00. The difference between amount paid and MAR is \$437.06, this amount is recommended for additional reimbursement.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$437.06.

### ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$437.06 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
